Features:

- Light weight: about half (or less) the weight of a standard steel tool
- High yield strength and high tensile strength
- Climb staircases easier - with a lighter load
- Low electrical conductivity: reduces shock Hazards
- Low thermal conductivity : stays cooler
- Add equipment with the weight savings of the Titanium Tool
- Corrosion resistant against water and seawater
- Corrosion Resistant to most chemicals & Needs No Oiling
- Material: Grade C-5 Titanium, meets standard ASTM B 367-13 and ASTM F 1472-14
